OKLAHOMA CITY, May 10.-Reports have just reached here from Hobart and Anadarko confirming the news of a tornado at Snyder, but no details are known. The 'Frisco Railroad is sending a relief train from Chickasha to Snyder. It is rumored that 400 people are killed and injured.

> LATEST REPORTS. [BY THE ASSOCIATED PRESS-P.M.]

GUTHRIE, May 11.-Late reports from Hobart, Okla., and Chickasha, I. T., place the namber of dead and injured in the tornado at Snyder, Okla., at 500.

The storm broke over the town at II o'clock last night, confpletely demolishing it, as near as reports can be obtained. The first news of the disaster was received at Hobart by telephone, giving a bald statement of the tornado having struck the town. The wires, both telegraphic and telephonic, then went down, and no further news has been obtained directly from Snyder.

It is now impossible to reach Lawton, Okla., the nearest telephone exchange to Snyder, and all telegraphic connections are reported down between that place and Snyder. Rescue trains have been started from Hobart, Okla., and Chickasha, I. T., which will arrive at Snyder this morning.

STATION AGENT KILLED. [BY THE ASSOCIATED PRESS-P.M.] SAPULPA (I. T.) May 11 .- The station agent at Snyder

report states that a search party has been out for the past two days. It is thought that the lost man is an employe of the Union Lumber Com-pany, which has its offices and yard it this city, and its mill on Breckenridge, but this cannot be verified at the offices

here.

It is stated that in the recent storm at least two feet of snow fell near the summit of Breckenridge, a fact that adds greatly to the peril of the lost man. Over a foot of snow fell at Rock Springs, stateen miles this side of the lumber company's mill.

the French admiral's report relieves
the seriousness of the situation with
Japan, as the departure of the squadron was what Japan asked for.

The report of the junction of Rear'Admiral Nebogatoff's division with the
ma'r Russian squadron under Admiral
Rojestvensky outside French waters
is considered official. This averts serious apprehensions that their junc-

squadron, arrived off Cape St. James. and left yesterday morning at the request of the Governor of French Indo-China. These cruisers brought instructions to Rear-Admiral Neb anchored three or four miles off shore

A heavy sea was running, exposing good deal of the warship's hulls or seaweed. The ships appeared to have unusually large crews and the men all seemed in good health. SHORT OF TOBACCO.

The main Russian squadron is said to be well provisioned, but short of tobacco and cigars.

LINEVITCH BUSY REFORMING ARMY HANDED OVER TO HIM.

Decided Change for the Better in Comparison With the Kouropatkin Regime is Noticed—Former Com-mander Says a Victory is Absolutely Necessary Before Peace.

IBY THE ASSOCIATED PRESS-A.M.] GUNSHU PASS, April 22.—[A. P. orrespondence.] Day after day, since assumption of the command, Gen evitch goes steadily about the in tion of the troops, both those or positions, and the units arriving a European Russia. Mounted on a small sorrel horse, wearing an old overcoat devoid of embroidery and overcoat devoid of embroidery and trappings, and with only the simple indication of rank, Linevitch, accom-panied by his adjutant, two orderlies and the chiefs of the reviewed troops, but almost without further suite, rides ong company after company, battery along company after company, battery after battery, finding something to say to each, sometimes a jest, sometimes a reproof, recognizing here and there veterans not only of the Chinese expedition, but also of the Turkestan campaign. This simplicity and the faith the soldiers have in the fighting ability of "Papa" Linevitch make a most inspiring impression on the troops.

most inspiring impression on the troops.

Regularly, at the termination of the reviews. Gen. Linevitch gathers about him the chiefs of the various subdivisions and in brief, incisive and officines quaint words, sets forth his oppinon of the situation of siffairs, the condition of the troops and his demands, orders and suggestions for improvement. He uses no pretty phrases, full of the promises and transparent hopes to which the officers were formerly accustomed, but the language of a soldier, breathing strength, determination, firm faith and full realization that his task is most difficult and heavy, that the work for him and his subordinates is colossal.

Even the non-military observer,

his subordinates is colossal.

Even the non-military observer, however, can note decided change for the better in comparison with the Kouropatkin régime. Jealousy and bickering have noticeably decreased. There is apparently less of the spirit of self-advancement, more subordination and "team work." Suggestions are no longer frowned upon and the subordinate with a plan or criticism is given a hearing. The impression made by a ride along the positions now occupied is astounding. It is difficult to believe that the well-clothed, well-shod troops, hearty in spirit, and even gay of face, are the same men who six weeks ago, underwent such superhuman hardships and the supreme test of a mortifying defeat.

Railroad Men at Washington Declare Themselves for a Fight to Finish.

Secretary Taft's Talk in Letting the Lid Fly up Has Startled Them.

Administration is With the People for Reasonable Rates.

(BY Dis.FCT WIRE TO THE TIMES.) ASHINGTON, May 10 .- [Exclusive Dispatch.] While the President was hunting in Colorado, it was announced in Washington that an agreement had been reached between the leading railroad interests in the United States and the leading Senators that a mild railroad bill should be passed by the next session of Congress, this bill, however, to be confined to private car, terminal and rebate abuses, but not to touch the rate question at all. When the President, at Denver, let it be known President, at Denver, let it be known in the first important address he made that he stood squarely for rate legislation, and when last night at the dinner of the railway conferes in Washington, his Secretary of War made a similar announcement, it knocked into smithereens all agreements for whitewash legislation.

Around the hotel lobbies today where the railroad men in attendance upo, the Railroad Congress were as-sembled, the absorbing topic of con-versation was the speech of President Roosevelt. These men say the issue is now squarely joined between the ad-ministration and the railways upon the subject of legislation. The ac istration abates no jot or tittle of its original stand for the regulation of railway rates, and the railroads are equally insistent that there shall not tent. It is said now to be a fight to

The next few days, it is stated upon competent authority, will see the or-ganization of still further efforts by the railroads to carry their point in Congress and with the people. There is no intention on their part to accept either the admonition of the President or the advice of Secretary Taft, that it would be the part of wisdom to yield to the popular demand. They are going to fight.

There is something more about this thing that can be told now, and that is, that before President Roosevelt can get rate legislation, there will be, as James J. Hill said in his remarks state Commerce, the other day, "a lot meent financial corpses, and he meant those financial interests that can be ily-holders of railroad stocks and ds. Part of the campaign to defeat President Roosevelt in his efforts to get rate legislation will be so greatly to depress the prices of railroad stock and bonds as to create the impress that the American railroads are upon the point of being ruined by govern-

NOT TALKING FOR OFFICE. BY THE ASSOCIATED PRESS-A.M. OMAHA, May 10.—The Bee quote the President as making the emphatic statement that he will not again be candidate for President. It says:

"You are authorized to state that will not again be a candidate for the office of President of the United States There are no strings on this statement

"I made my speech at Denver for the purpose of convincing the people of my earnesiness in regard to the matter of railroad legislation. I will not be satisfied with any compromise that does not bring relief to the people from the conditions that now exist in regard to transportation facilities in he country. No compromise bill from Congress will be accepted.'

"This is President Roosevelt's reply to a representative of the Bee on its special train as it journeyed across Nebraska. Published statements to the effect that the President will be forced to accept a renomination by the peo-ple who would be aroused to that pitch by the failure of Congress to enact remedial legislation, was shown him. He expressed himself most emphaticalby that he was not to be swayed from his determination by any advances that might be made him, no matter in what disguise they came.

AN FRANCISCO, May 10.—In de-SAN FRANCISCO, May 10.—In deciding an appeal taken by Alexander Fruser from a ruling in the Superior Court throwing out Fraser's suit for damages against the California Street Cable Company, the Supreme Court today laid down an important bill of law. Fraser, while riding on the footboard of a California-street car, was struck by an express wagen and injured. He suck the car company for damages and was ruled out of court. The appeal was taken, and the Supreme Court upholds the action of the lower court, on the ground that riding on the footboard of a car is contributory pecligence in case of injury, and that, therefore, damages cannot be collected.

TANANA CUTS NEW CHANNEL. [BY THE ASSOCIATED PRESS—AM.]
SEATTLE, May 10.—Maj. W. A. Glassford has received an official dispatch from Lieut. Fitzpatrick of the signal office at Fort Gibbon, to the effect that the Tanana has cut a new channel eight miles above Chena, making a detour around the town and leaving vessels high and dry. The change in the channel renders Fairbanks practically an inland town, as the entrance to Chena Slough, on which Fairbanks is situated, is just above the town of Chena and no vessel can now reach Fairbanks.

Ice jams are supposed to have cut the new channel. TANANA CUTS NEW CHANNEL

THE QUALITY STORE

Inside Information

Appearance is a very essential element in clothing. Your appreciation of certain styles has much to do with your selection when you buy. But it is the real goodness of material and workmanship on the inside-the parts you can't see, that you must rely on the honesty of the seller for when you buy-while we can't inspect every garment as it is being made, we do select our manufacturers as we'd choose a friend. Then we put the M. & B. label on the garment (and back it up with our quarter century of standing) as your guarantee of money's worth-or money back-Let us show you some of these.

I am glad to be able to say this to you, gentlemen, before I say it to anybody else. "Now, let me repeat that I know nothing of the facts of the situation. I know nothing of the facts of the situation. I know nothing of the rights or wrongs of the points at sasue. What I have to say is based purely upon what I regard as the unfortunated phrasing of a letter presented to the President of the United States. I have mot been called upon to interfere in any way, but you must not misunderstand my attitude. "In every effort of Mayor Dunne to prevent violence by mobs or individuals, to see that the laws are obeyed, and that order is preserved, he has the hearty support of the President of the United States, and, in my judgment, he should have that of every good citizen of the United States.

"Now, gentlemen, it has been a great pleasure to see you, and I am glad to have had the chance to say this to you."

QUINN PRESUMING.

QUINN PRESUMING.

Again, who knew the President in his youth, said: "Mr. President in his youth, said: "Mr. President, what prompted us to come to you with this statement is that for the past two or three weeks there has ben a continual howl for the Feedral army. I have known you long enough to know that you would not respond to a one-sided demand; that you will not respond to the case."

The President replied:

"Mr. Quinn, as yet, the Mayor of Chicago has not made any appeal to the Governor, and, therefore, of course, the Governor has made none to me; and as yet nothing in the situation has demanded action by me."

President Shea of the Teamsters' Union then said:

"Let me explain that. The Governor has been requested by the committee of the employers to demand Federal troops; the statement has been made in the papers. I immediately telegraphed Gov. Deneen that we would allow him to appoint a commission. "Regardless of that, I want to make our position know to you in regard to the mob violence. Every time a mob congregates, every act ofviolence performed by either a union man or a sympathizer reacts to our detriment. I believe that we are skilled workmen enough in our particular craft to demonstrate to our business men of Chicago that it is to their interests to employ us. There is nothing at stake but the resimployment of citizens of Chicago who have been forced out of their positions.

"Violence meets with the condemnation of the officials, both local and nandom of the officia

tional, of our organization. It does not meet with the sympathies of our organization. I simply want to say that we will be fair, to preserve the business interests of Chicago; that the prosperity of our employers is our prosperity. LAW MUST BE UPHELD.

The President replied to this, saying:

"Mr. Shea, I can only repeat what I have said. I am a believer in unions. I am an honorary member of one union. But the union must obey the law just as the corporation must obey the law, Just as every man, rich or poor, must obey the law. As yet, no action has been called for by me, and most certainly, if action is called for by me, I shall try to do exact justice under the law to every man, so far as I have power. But the first essential is the preservation of law and order, the suppression of violence by mobs or individuals."

This closed the interview, and the committee withdrew.

The strongly worded protest against sending Federal trops to Chicago is signed by Cornelius P. Shea, president of the International Brotherhood of Teamsters; Charles Dold, president of the Chicago Federation of Labor and by other labor leaders.

Charging that the employers have repeatedly spurned the request of the labor leaders for arbitration, the protest declares that the employers populy loasted that Federal troops would back up the employers' side of the controversy.

"Peace," says the protest, "rests not upon the militia or the amon, but upon

MERCHANTS' CLUB LUNCH.

BY THE ASSOCIATED PRESS—P.M.

(BY THE ASSOCIATED PRESS—P.M.)
CHICAGO, May 10.—Hardly had the President's carriage stopped at the entrance of the Auditorium Annex when the President, tanned and smiling, stepped briskly to the sidewalk, followed by Gov. Deneen, Mayor Dunne and Charles H. Wacker. The President was greeted with cheers from the crowds massed along the street and overflowing into Grant Park. He hurried into the hotel, and was whisked to the sixth floor to his apartments. A short stop, and he was on his way down to the banquet room, where luncheon was served.

The other guests were already assembled and there was no delay. On the President's right ant Mayor Dunne, while to the left was Mr. Wacker, with Gov. Deneen mext. While the luncheon was in progress, and before the speeches, a beliby appeared bearing a long yellow envelope addressed to the President and marked "special." It was thought to be a protest from the Chicago strike leaders against the use of troops here. Nothing, however, could be learned during the luncheon regarding the protest.

President Roosevelt was introduced by President Roosevelt was introduced by President Wacker of the Merchants' Club. The President, as the keynote of his speech, took up the foreign policy of the country. "This country of ours," he said, "is preëminently a business country, and we can succeed—and I say this in my turn, with entire sincerity, gentlemen—only if, as a country, we carry on national' business as a member of this association carries on his business; that is, in an entirely practical spirit, in a spirit which desires and commands success, but which desires and commands success, but which desires and commands it as an incident of acting with decency toward all our fellow-citi-son." AT THE HAMILTON CLUB. The President was escorted from the Auditorium Hotel to the Hamilton Club by a committee including four Congressmen, James R. Mann, George Foss, William Wilson and Martin B. Ladden. The route from the Auditorium to the Hamilton Club was lined with people. The President was greeted with cheers, and bowed continuously in response. He received the foreign consuls located at Chicago, resplendent in their varied uniforms. As he greeted the last of the consuls, the doors were thrown open and a double line of those invited to the general reception entered. It was an hour before the last man had shaken the President's hand.

THE HARVARD CLUB. At the conclusion, the President re-tired under the canopy before which he had been received, and while scated, kept up a general, rapid-fire conversa-tion with a few around him while the parlors were cleared and turned over to the Harvard Club of Chicago. The Harvard Club's president, Kellogg Fair-banks, stood at President Roosevelt's left and made the introductions. More than three hundred graduates of Har-vard filed by, the earlier classmen leading. When the last graduate had retired to the rear of the parlor, President Fairbanks introduced Samuel S. Greely, who read a short address to the President. In reply the President spoke of the need in Harvard "for western bleed".

AT THE IROQUOIS CLUB.

SCENE ALMOST UNPARALLELED. (BY THE ASSOCIATED PRESS-P.M.) CHICAGO, May 16.—Rarely before in this city has such genuine enthusiasm been evoked as was wakened by the President at the conclusion of his speech. As he announced the fact that, behind the Stute, the nation would behind the State, the nation would stand for the preservation of order in Chicago, wild cheers and the vigorous clapping of hands interrupted him for several minutes. When he brought his address to a close, his auditors shouted, cheered and waved their napkins in approval. Dozens of the guests mounted chairs and shouted until they were hoarse. Some of them, carried away with enthusiasm, jumped upon the tables, heedless of linen and china and glassware, and sent forth cheer after cheer.

glassware, and sent forth cheer after cheer.

Mayor Dunne, profoundly moved by the words of the President, sprang from his seat and grasped the President's hand, which he shook vigorously while he expressed his gratitude.

For fully ten minutes the hall rang with the applause, while both Democrats and Republicans gathered around the President to offer their congratulations on his speech. Smiling and bowing in response to the congratulations showered upon him, the President, attended by President Gunther and the members of the Reception Committee.

his rooms, to prepare for his departure from the city. The President in his speech said:
"I very deeply appreciate the honor of being your guest and the guest of the city of Chicago, this evening; and, in looking at the possibilities of the future, let me add that I have not the least anticipation of Chicago's ever reversing that most complimentary vote, which I so deeply appreciated last year, because it will never have the chance.

last year, because it will never nave the chance.

"I have accepted your kind and gen-erous invitation to come before you, be-cause, the longer I am in political life the more firmly convinced am I that the great bulk of questions of most importance before us as a people are questions which we can best decide not from the standpoint of Republican-ism or Democracy, but from the stand-point of the interests of the average citizen, whether Republican or Demo-crat.

"There are foreign questions and

critizen, whether Republican or Democrat.

"There are foreign questions and there are domestic questions. Our politics, should, and in the great majority do. disappear at the water's edge and when I had to choose a man to represent in a peculiar degree, the interests of this government in one of the most important negotiations of recent years, that concerning the Alaskan boundary. I chose the best lawyer, one of the ablest public men, and one of the most fair-minded patriots that could be found in the country; and the fact that he was of the opposite faith did not interfere with Judge Dickinson doing that work well.

"Having drawn an Illinois citisen, at least one by adoption, for one bit of work, let me speak of something that has happened more recently. One of the works Uncle Sam has on hand just at present is digging the Panama Canal—and it is going to be dug. [Cheering and cries of "good," "good."] It is going to be dug honestly, and as cheaply as is compatible with efficiency—but with efficiency first. I wanted Congress to give me power to remodel the commission. It did not do it. I remodeled it anyhow, and purely in the exercise of my executive functions; and I made up my mind this time that I was not going make the slightest effort to represent different sections of the country on that commission. I was going to try to have the whole country represented, and put the beat man I could get in any given position without the slightest regard to where she came from. And, while it was an accident, still I may mention it as a fortunate accident, that the then most important positions were filed from Illinois—Shonts and Wallace from Illinois—Fromts and Wall

filed from Illinois.—Shonts and Wallace from Illinois."

CAPITAL AND LABOR.

The President took up the question of capital and labor, covering the same ground as in his Denver speech and advocating Federal regulation of raliroads. He said:

"Personally, I believe that the Federal government must take an increasing control over corporations. And my views on that subject could not have been better expressed than they were expressed yesterday, I think, by Secretary Taft in Washington; as they were expressed yesterday, I think, by Secretary Taft in Washington; as they were expressed by the Attorney-Genera: in his communication to the Senate committee a couple of weeks ago.

"I believe that the representatives of the nation should lodge in some executive body the power to see that the power to see that the provisions of the law epply in full to the companies owning private cars, just as much as to the railroads themselves. The courts will retain and would retain, no matter what the Legislature did, the power to interfere and upset any action that was confiscatory in its nature. I am weil aware that to give this power means the possibility that the power must exist.

"Another thing I wish definitely understood, if the power is granted to me to create such a board, I shall strive to appoint and retain men who will do exactly the same justice to the railroad. The men whom I am going to appoint to office will be men who will no more be frightened by an even well-meant popular clamor into doing any act of injustice to any great corporations than they will be men who will no more be frightened by an even well-meant popular clamor into doing any act of injustice to any great corporation. "Now, for the other side of the question. There have been a great many republic se before our time, and again and again those republics have split upon the rock of diasater; the greatest and most dangerous rock in the course of any republic, the rock of diasater; the greatest and most dangerous rock in the course of any republic to the rep

government of a mob. I believe in corporations. They are indispensable instruments of our modern industrialism, but I believe that they should be so supervised and regulated, that they should act for the interest of the community as a whole. So I believe in that I am an honorary member of one union, but I believe that the union, like the individual, must be kept to a strict accountability to the power of the law.

SUPPORTS THE LAW.

"Mayor Dunne, as President of the United States, and therefore as the reputation of the contract with the unions. I am proud of the fact that I am an honorary member of one union, but I believe that the union, like the individual, must be kept to a strict accountability to the power of the law.

SUPPORTS THE LAW.

"Mayor Dunne, as President of the United States, and therefore as the representative of the people of this country, I give you as a matter of course, my hearty support in upholding the law, in putting down violence, whether by a mob or by an individual. [Cheers, with many standing, waving handkerchiefs, napkins, etc.] And there need not be the slightest apprehension in the hearts of the most timid that ever, the mob spirit will triumph in the counter the mob spirit will triumph in the counter the mob spirit will triumph in the counter the most spirit will triumph in the state, and such of the fore call is made upon any outside body. But, if ever the need arises, back of the State stands the State, and back of the State stands the nation. And there, gentlemen, is a point upon which all good Americans are one. They are all one in the conviction, in the firm determination that this country shall remain in the future, as it has been in the past, a country of law."

Mayor Edward F. Dunne, in speaking on "The City of Chicago." said:
"This city greets Theodore Roosevelt because he is the chosen chief of eighty millions of free people; because, by his sterling manhood, patriotism and energy he has fairly and honestly won the proud position he now occupies—the proudest on earth—and because in his character he typifies that which the citizens of this city honor above all else—honesty of purpose and intensity of effort."

ported, but Jewish circles here fear further developments, not only in Zhitomir and Gostynin, but also in other localities along the Polish frontier, where the Jewish element is numerous and the anti-Semitic sentiment strong. The official account of the Zhitomir trouble assigns the origin of the rioting to an encounter betwen a party of Jews who were boat riding, and some roughs on the bank of the river. The latter stoned the Jews, who defended themselves with revolvers, wounding several of the attacking party, but not seriously. Reports of the encounter, quickly spreading, aroused the Christian populace to frenzy. The Jews also banded together for mutual protection, and, though a general encounter was prevented by the troops, several minor riots occurred, in one of which a Jewshoy was killed, and several persons were wounded. The disorder culminated May 7 in a pitched battle between Jews and Christians in the public square in the center of the city. Simultaneously, there were collisions in several of the suburbs.

The principal bloodshed occurred Thursday and the rioting assumed apparently an organized character. Finally the military, of which there were three regiments stationed in the town. Intervened and dispersed the crowds. Numerous arrests were made, including forty Christians.

May 8 saw no renewal of fighting on a grand scale, but instead, the rabble, dividing into small parties, plundered stores and houses where they could evade the military and committed several murders. Tuesday and Wednesday the events were comparatively unimportant, though plundering and outrages occurred.

The regular garrison of three infantry regiments has been augmented by a battery of artillery and a detachment of dragoons.

the thirteen who engendered so many other States; the thirteen who were the first cause and progenitors of this mighty republic. I have been asked to speak, and this will make a fourteenth speech. Perhaps it has been thought that, in fact, there were not thirteen States, but fourteen arrayed together for freedom; for one more sided with the others, and that was France.

"Hearty as was her support, risking as she did everything, army, navy and colonies, she was only an auxiliary; our officers were ordered never to forget it, and those old soldiers who had fought in the Seven Years War yielded with alacrity precedence on every occasion to their American brethren who were defending their own ground and their liberty.

"These I consider to be standing orders. I speak only as an auxiliary, and my address will be, as it should be, a brief one. It will, however, give expression to the feelings which such a gathering as this inspires to the representative of the country from whence came, years ago, some such men as Lafayette, Rochambeau and De Grasse, whose crowning glory was achieved under the supreme command of Washington, in felds not far remote from this city.

PARDEE BRAND OF POLITICS.

How Will the People Take to it Next Year?

Governor Wants to Succeed Himself, of Course.

Some of the Obstacles He Must Overcome.

SAN FRANCISCO, May 9.—It is a historical fact of interest that during a reriod of more than fifty years only one Governor of California has been chosen to serve a second term. This was John Bigler, elected in 1851, reflected in 1853, and defeated in 1855 by the "know-nothing" candidate, J. Neely Johnson.

SAN FRANCISCO, May 5.—It is a historical fact of interest that during a period of more than fifty years only one Governor of California has been chosen to serve a second term. This was John Bigler, elected in 1855, reflected in 1853, and defeated in 1855, by the "know-nothing" candidate, J. Neely Johnson.

During the same period (excepting Bigler,) but one Governor has been renominated by his party, and but one other has seriously aspired for a reasonization. Gov. Henry H. Haight was elected in 1851 by Newton Booth. Gov. Gage in 1902 aspired to a renomination. Gov. Henry H. Raight was elected in 1851 by Newton Booth. Gov. Gage in 1902 aspired to a renomination, and it was refused him.

The case of Bigler, however, is scarcely a pre-cedent. Governors in his time were elected for but two years, and the same refused him.

These historical facts, so significant to the political mind, are just now adaly subject of discussion among the political mind, are just now adaly subject of discussion among the political mind, are just now adaly subject of discussion among the political mind, are just now adaly subject of discussion among the political mind, are just now adaly subject of discussion among the political mind, are just now adaly subject of discussion among the political mind, are just now adaly subject of discussion among the political mind, are just now adaly subject of discussion among the political mind, are just now and prink of the multitude, within a month I have justened to a receive the political mind are just now the county affected, and are purely local in character; the governor happens and only one has been renominated.

Here is no nead edegated in prove the county elected these representatives and should be bound by their immutable precedent, which it will be discussed the political questions are resumed to the political mind, are just now the political mind and prove the political mind are proved to th

in his public character Gov. Gage in any respects commended himself to e people. In this city he quarreled In his public character Gov. Gage in many respects commended himself to the people. In this city he quarreled with Mr. Spreckeis and Mr. De Young, the local newspaper leaders, and their multitude of enemies applauded him. He fiddled with the union-labor leaders and gained their friendship, and he wrangled with the tax enters, and kept taxes down. But every time he touched patronage he damned himself. It seemed impossible for him to appoint a competent or respectable man to anything, and under his management the public service everywhere went downdown—to his eternal disgrace. At the convention of 1963, many powerful interests recognized his merits and supported him, but the argument against him that nobody could answer was that his appointments were indefensible. So patronage, in the final analysis, killed him.

Gov. Pardee is an improvement on Gege. He is more affable—a smooth political confidence operator, as it were, in dealing with men—more circumspect, more careful in avoiding antagonisms—in short, a more skillful politician. The testimony of discerning men near to Pardee, as I have it, is to the effect that his predominant characteristic is cunning—deep, penetrating cunning—the variety, in fact, which sometimes overreaches itself. Standing before a mirror and admiring himself, I could imagine the doctor saying: "They think because I laugh and josh that they can rush me and get me off my guard. They think because I take the gold brioks they hand me that I am a farmer. But the man don't live that they can rush me and get me off my guard. They think because I take the gold brioks they hand me that I am a farmer. But the man don't live that they can rush me and get me off my guard. They think because I take the gold brioks they hand me that I am a farmer. But the man don't live that they can rush me and get me off my guard. They think because I take the gold brioks they hand me that I am a farmer. But the man don't live that they can outwit me or catch me. I will like all men who are cunning. Dr. Pardee lacks

bet."

But like all men who are cunning, Dr. Pardee lacks profundity. He cannot make a great speech or originate a great idea. The intellectual side of his public policy is contributed by his secretary. A. B. Nye-an able mannand such legal advisers as former Judge John F. Davis of this city. Handling patron...ge so as to produce political results is, therefore, Pardee's fortem in his own mind.

HIS SYSTEM.

His system is simple and easily understood. When an official vacancy exists in a particular region he "recognizes" the political powers of that locality, and requires them to join the Pardee combine. When a vacancy happens in a State office, he appoints the man possessing the biggest pull, requiring him also to enroll in the Pardee machine. But under no circunstances will be appoint an incompetent or disreputable man. This system ought to produce practical political results, and it would, but for one everexistent fact. There are factions in every locality which contend for the offices, and Pardee makes just as many enemies in appointing capable men from these factions as Gage did in appointing incapable men without reference to any factions or political pulls, except such as he conceived to exist.

pulls, except such as he conceived to raysts.

In other worls, political pap has killed Pardee just as it has killed other Governors-for fifty years, notwithstanding it must be admitted that he has handled it with more skill than any of his immediate predecessors.

This is the sum and substance of the discussion among the politicians around the bay of the historical facts with which I opened this letter.

The Alameda political trust created by Pardee, with the aid of William F. Herrin, the Southern Pacific's chief lawyer—who, it is believed, is a warm supporter of the doctor—thinks it can break the record; at all events, if proposes to try. That the job is a hard one is evident. In 1902 Curry, for Secretary of State was elected by a plurality of 45,000; Kirk for Superfinendent of Schools by 50,000. Gov. Pardee crept in with a beggarly 249. Surely these Alameda politicians are a hopeful lot.

I set these matters down for your entertainment, "swithout attempting to all who are entitled to vote on the dall who are entitled to vote on the classifications here will place the name of all who are entitled to vote on the dall who are entitled to vo

They are now in every political mind here, and wherever the gubernatorial succession is discussed they are discussed. As you must perceive, they ever bear upon the question, is Dr. Pardee available for renomination?

But there are other things in connection with this matter which must be considered before Pardee's ambition to succeed himself can be understood. I will advert for a moment to one of them.

COUNTIES ROBBED. During the last session of the Legis-lature a number of bills were intro-duced at the instance of Courthouse

duced at the instance of Courthouse rings in various portions of the State, increasing the salaries of county officials. The legislators who fathered them were in most cases forced to introduce them; to refuse meant political annihilation at home. But I know that as a general thing these men hoped the bills would finally be defeated.

The officials interested in the jobs raised small "sacks" to promote their passage through the Legislature. Take your own southern county of San Bernardino, for an illustration. The officials benefited by one of these bills sent former Senator Seymour to Sacramento well supplied with money, and he remained there all winter working for their measure.

ARMOUR CAR LINES' COMPROMISE FAILS.

Offer to Reduce Charge for Icing if Chicago Commission Merchants Would Drop Investigation is Rejected-Michigan Central's Pledge.

May 10.—[Exclusive]
The monopolistic grasp

should it succeed, it is said the feat will be accomplished through an amicable arrangement with the Weils-Fargo people, by which the former company will share the offices of the latter.

With a temporary truce patched up, the officials of the two express companies and of the railroad line are endeavoring to arrive at a decision as to which of the contending express carriers shall handle its business over the new railroad line. Dispatch.] The monopolistic grasp which the Armour car lines for which the Armour car lines for the bloom time have had on the Michigan fruit trade was effectually broken today, when the announcement was nade before the Interestate Commerce commission that the Michigan Central mad would hereafter use its own refregerators and would charge shippers could be countered to be the countered to the countered to be the countered to be

to which of the contending express carriers shall handle its business over the new railroad line.

As told in The Times a few days ago, the Pacific is operating from Sait Lake City to Daggett, from which point the trains of the Sait Lake line run to San Bernardino over the Santa Fé tracks, while the Wells-Fargo Company operates from Los Angeles to Riverside on the Sait Lake, and from there to Daggett over the Southern Pacific and Santa Fé. The latter company also controls the express business of the Sait Lake line to beach and other points near this city.

The Wells-Fargo company has the key to the situation through the fact that its contract with the Santa Fé prevents the handling of the business of any other express company over its lines, but Wells-Fargo is as anxious to get into the Nevada mining country as the Pacific is eager to get into Los Angeles.

Under these circumstances, and until regerators and would charge shippers the exact cost for icing service.

This piedge was made by Attorney gaw, representing the Michigan Censist and resulted in the case being assisted by the commission as to that relieved. The split between the Michigan Central and the Pere Marquette as came after ineffectual attempts to deet the commission merchants and site the Interstate Commerce Commission to accept the new schedule of the making reductions of between 15 at per cent. In Icing charges. Such relations Attorney Plummer, for the commission men, declared to be ridicated, in the of that fact that the latest testimony showed that since

closs, in view of that fact that the trust testimony showed that since as advent of Armour, exclusive-connict leing charges had been advanced severa 300 and 400 per cent. The determination of the Michigan certal, which, with the Merchants' negative transportation Company, is astructing 1500 refrigerator cars to how down the gauntlet to the Armour car lines and comply with the mands of the commission and of the rail me, is said to place the Armour insense and the Pere Marquette in a stickment, and to indicate the lines which the great battle will be batt. the Pacific is eager to get into Los Angeles.
Under these circumstances, and until the officials of the companies can reach an agreement, the opposing carriers are exchanging business at Dagett without subjecting it to delay.
An express official said yesterday that there would be no change in rates, even if the Pacific reached this part of the Coast. There is a rate agreement among the express carriers not unlike that in effect among the various railroads of the Computy.

The Pacific however, has no outlet to the Pacific Coast south of Portland, while its nearest approach to Los Angeles from the East is El Paso, Tex.

the expiration of the contract, a Pere Marquette will follow the of the Michigan Central in furning its own refrigerator cars, and this event, the Armour line, it is it will be driven from the State.

CONFESSES BURGLARY

Los Angeles Man Arrested in Sar Francisco Admits Crime—Plunder in His Rooms.

in His Rooms.

A. M. Sobranes, a Los Angeles youth, was arrested in San Francisco. Tuesday night for robbery. He not only confessed burgiary, but told the police he left Los Angeles with half a dozen others to "work" Portland during the exposition. He was out of funds when he reached San Francisco and while the others went on he waited to "earn" a few dollars. His rooms were found to be filled with loot he had gathered. He claims to be a son of a wealthy Los Angeles transfer man, and explains that he had only visited one pawnshop. He met on the "Barbary Coast," Minnie Taylor, a married woman, with whom he has since been consorting at Hotel Phillips. She is under arrest, and through her the detectives expect to obtain information of additional burgiaries which Sobranes has committed. Sobranes was a driver for the Lamb Frait Company and boarded at No. 743 South Broadway, according to the city directory.

EDICOS MEET IN BARBARA.

STATE HOMEOPATHIC BODY II

tribute to the Entertainment of Visiting Physicians — Death of Capt. Phillip Pendleton Powell. Christian Endeavor Convention.

SPECIAL CORRESPONDENCE OF THE TMES.;

SANTA BARBARA, May 10.—The
California State Homeopathic Medical
Society met this morning at the Potter Hotel in its twenty-ninth annual
meeting. The gathering will occupy
three days' time. Fifty of the prominent medical men from different parts
of the State and representing a number
of homeopathic institutions are in attendance.

ings will be held on Thursday and Friday. Many of the doctors are accompanied by their wives and families,
and a number of pleasant social features have been arranged, which will
add to the pleasure of the visitors and
make the Santa Barbara session one
that will not soon be forgotten by those
who are in attendance.
While the doctors were in attendance this morning, their wives and
families were given a drive in and
about the city as guests of the homeopathic physicians of this city.
The opening session was held in the
tower room of the Potter Hotel. President S. S. Salisbury of Los Angeles
presided. The board of censors was
represented by Drs. Pliny R. Watts of
Sacramento, Guy E. Manning of San
Francisco and Henry L. Stamback of
Santa Barbara. The board of directors
was represented by Drs. William
Boericke of San Francisco and Charles
L. Tisdale of Alameda. The board of
cxaminers was represented by Drs.
Charles L. Tisdale of Alameda. E. C.
Buell of Los Angeles and Guy E. Manning of San Francisco. The Committee
of Legislation was represented by Drs.
Charles L. Tisdale, William Simpson
of San José, George H. Martin of San
Francisco and Pliny R. Watts of Sacramento.
The following were elected officers: pany, which is composed of officials of the Salt Lake Railroad Company, an-nounced yesterday that lots in Clark's townsite at Las Vegas are to be sold at auction next Monday, instead of at The auction sale will be conducted at Las Vegas by C. O. Whittemore, presi-dent, and Ferd K. Rule, treasurer of the company, with the assistance of Frank A. Waters, general right of way and claim agent of the Salt Lake line.

Frank A. waters, general right of way and claim agent of the Sait Lake line. It was explained by directors of the Land and Water Company, after a meeting yesterday, that the change from private to auction sale had been determined upon because of the large number of applications for the 1200 lots, and principally for the reason that there was no just way in which to meet the demands of numerous applicants for the same lot.

In one instance there are thirty-five persons have applied for another lot in the projected business district.

The principal demand is for locations near the railroad station, in what is expected to be the business center. These locations are on Main stret, facting the site of the depot, and on Fremont street, which leads from the railroad station into the remainder of the townsite.

townsite.

In two blocks adjacent to the coming business district there will be no restrictions regarding the sale of liquor. Numbers of prospective saloonkeepers have applied for locations therein. In other sections of the town, the deeds provide that liquor shall not be sold, except with meals at restaurants, in basels.

president, secretary, Guy E. Manning of San Francisco.
At the afternoon session the discussion of medical education, statistics and necrology was led by Dr. Thomas G. McConkey of San Francisco. Dr. tSamback of Santa aBrbara and Dr. E. R. Bryant of San Francisco also spoke on the same subject.

President S. S. Salisbury delivered his annual address this evening. He was followed by obituary eulogies on departed members of the organization.
M. B. Campbell of Los Angeles eulogized the late Dr. John M. Wilcox of the Pation asylum, and Guy E. Manning of San Francisco spoke on the life and work of Dr. Francis X. Spranger of San José.
DEATH OF CAPT. POWELL.
Capt. Phillip Pendicton Powell, U.S. A. died suddenly this morning at his at the minimum price set for them at the abandoned private sale.

Excursion rates will be effective for those going to the auction sale, and it is expected by the railroad company that a large proportion of the 2000 persons in Los Angeles, Salt Lake City and other points, who have applied for lots, will attend the sale.

DEATH OF CAPI.

Capt. Phillip Pendieton Powell, U.S.

A. died suddenly this morning at his residence on Sola street. He was 59.

He was born in Mortonsburgh, W. Va., and served as a Confederate officer, and afterward in the regular army with distinction in the Cuban cam-

RAISING CONVENTION FUNDS. James Warren, president of the 1906 Christian Endeavor Convention Com-mittee, was busy yesterday raising funds for the big convention which is to be held here next month. The Santa Barbara Christian Endeavorites have Salt Lake City. The new line also has made a round-trip rate of \$60 for the Portland Exposition, good via Salt Lake City.

more money will be needed for the coming convention than is usually required, but the young people have shown themselves equal to the task. The custom has been for the citizens and business men to raise the money for the expenses of the convention and leave the minagement of the sessions to young people, but the Christian Endeavorers of this city have gone ahead and raised 31700 by their own efforts.

At the recent meeting that was attended by the officers of the California Christian Endeavor Union it was figured out that \$1800 would be required to pay all the expenses of the convention, and perhaps a larger sum will be used before it is all over. But only that amount will be raised here, as the State committee has offered to pay all expenses over that sum. The young people have decided to thoroughly solicit about the city and ask the citizens and merchants to subscribe the remaining \$700.

TALLYHO PARTY.

TALLYHO PARTY. Mrs. A. Douglas of Los Angeles, Mrs. G. K. Cook of St. Louis, Don Hague of Los Angeles and E. C. Butchelder of New York arrived in the city yesterday from the south in a large tallyho, and are registered at the Arlington.

Stanley W. Merrill, capitalist of Cincinnati, is at the Angelus with his wife. Perkins Layman, formerly with the Van Nuys of this city, is in town for a few days, and is at the hotel with which he was at one time connected. Mr. Layman is in charge of a hostelry at Jerome, A. T.

Chief of Police and Mrs. Hammel left last night for Washington, D. C., whither the Chief goes to attend a convention of chiefs of police to be held May 22. Afterward Mr. and Mrs. Hamme' will visit in the East and expect to a besent from Los Angeles about a month.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

The United States grand jury began its investigations yesterday to get another batch of indictments ready for the court upon its return from Fresno, where it is now in session.

Clara Lichten, a roomer in a lodging-house at Alameda and Commercial streets, tilted a lamp too far yesterday, and was painfully burned by the explo-sion. She was sent to the Receiving Hospital.

Long Way from Home.

H. Bland, a young man who has been in this city but a short time, was arrested yesterday by detectives and locked up in the City Jall to be held awaiting instructions from Poughkeepsie. N. Y., where he is wanted on a charge of rape.

M. Y. Stack, who was injured by a street car at Third and Los Angeles streets Tuesday night, died at the Receiving Hospital yesterday morning. He had sustained a fractured skull and a broken leg. The body was removed to Pierce Bros.' undertaking rooms for the inquest.

Childrens' Home Officers.

The board of directors of the Children's Home Society of California, has chosen the following officers: President, Julius A. Brown; vice-presidents, J. W. Eddy and Dr. F. B. Kellogg; treasurer, W. E. McVay; secretary and attorney, T. M. Stewart; Finance Committee, J. A. Woods and J. H. Lapham.

New Members Chosen.

At the regular meeting of the board of directors of the Chamber of Commerce yesterday the following were elected to membership: Earl W. Mueller, George W. Haines, W. T. Selleck, George H. Rector, Daniel H. Selling, Leo J. Maguire, Metropolitan Bank and Trust Company, Dr. W. T. Mc-Arthur, Antioak Leather Company, Hida Wouldn't Tell.

Hilds Wouldn't Tell.

Mary E. Spencer of No. 721 West
Twenty-third street telephoned the police yesterday that Hilda Sunden, who
apparently has been working for Mrs.
Spencer, had lost \$40 through the transactions of a sneak thief yesterday
morning. When an officer interviewed
Hilda she told him it was none of his
business and whe wouldn't tell him anything about her reputed loss.

thing about her reputed loss.
Lodging-house Fire.

Pire of unknown origin started in a closet of a room occupied by M. F. Jolliff and Roy Coffeen in the Clark lodging-house, No. 3164 South Spring street early last evening. The blaze was smoldering when, discovered, but it damaged the contents of two rooms before the firemen arrived. A chemical crew under Chief Lips quickly extinguished the blaze. The damage was nominal.

Visitors at Station. Visitors at Station.

Capt. J. B. Burbidge of the Salt Lake police department, and several members of the Council from the Intermountain city visited police headquarters lass night, and saw the workings of the system. The immense amount of work accomplished by the local department impressed the Salt Lake men, and they declared they would institute a number of innovations in their own department in an effort to keep pace with Los Angeles.

They Marvaled.

They Marveled.

"Why suburban lots here are almost as dear as Main street lots at home," said a Salt Lake real estate man yesterday. All the visitors were asterday when they were told of the high prices ruling between here and Pasadena. They were much taken with that town. Its business district is, as a matter of fact, almost as extensive as that of Salt Lake, aithough the population is only one-third as great.

Nutmess Meet.

There was a good attendance at the monthly meeting of the Connecticut Society held Tuesday evening at the Chamber of Commerce. An enjoyable programme was given, consisting of vocal solos by Charles Lamb, a violin solo by Miss Florence Stratton, and readings by Miss Eva Brown. C. H. Bliss and D. L. Durand gave interesting reminiscences of Connecticut. A social hour and refreshments followed.

This evening at Blanchard's Hall the Catholics of the city will be given an entertainment for the benefit of two parishes, St. Patrick's, at Vernon, and the parish of the Blanca Communication. parishes, St. Patricks, at Verion, and the parish of the Blessed Sacrament, Hollywood. The programme will be musical, and among those who will assist are Miss Jennie Winston, Miss Adelaide McNeil, Miss Mary Marrick, Miss Louise Giese, Miss Lydia Grolis and Dr. John M. Loretz, the composer and organist. Members of the Young Men's Institute will act as ushers, and Fathers Murphy and O'Reilly will give a reception to their friends. Articles not called for at the recent joint fair will be disposed of, including an upright plane, a colonial clock, etc. imperial Excursion,

imperial Excursion,

The Chamber of Commerce excursion to Imperial. Calexico and Brawley will leave the Southern Pacific station today at 12:10, and all those who desire to take advantage of the reduced rate of 36.75 for the round trip, to the members of the Chamber of Commerce and their friends, must secure their tickets at the office of the secretary this morning. Tickets bought at the station will have to be paid for at the regular rate, and it is the desire of the management to avoid such disappointments, and they therefore urge all to get their tickets this morning. It will be an enjoyable trip and the people in the Imperial region promise every courtesy in order that the stay with them shall be pleasant.

Orphans' Home Meeting.

Orphans' Home Meeting.

The annual meeting of the Los Angeles Orphans' Home will be held on Friday afternoon at 2 o'clock in the Broadway Christian Church. The routine of business will be interspersed with an interesting programme and reception. Mrs. Donald J. Frick, assisted by Mmes. N. Sanderson and Moyne Stephens, will have charge of the decorations. Mrs. J. H. F. Peck, with a corps of assistants, will receive. Those who will assist with the programme are Rev. Robert J. Burdette, Dr. Robert Mcintyre, Miss Maud Reese Davies, soloist, and Miss Beulah Wright, dean of the College of Oratory of the University of Southern California. The report of the year's work will be given.

A large delegation of physicians has Orphans' Home Meeting.

Gone to Santa Barbara.

A large delegation of physicians has gone to Santa Barbara to attend the State Homeopathic Medical Convention, which opened there yesterday (Wednesday) morning and will continue its sessions until Friday evening. Dr. S. Salisbury of this city is president of the society, and other doctors who will represent Los Angeles are: Drs. F. S. Barnard, E. C. Buell, O. S. Barnum, W. J. Hawks, H. M. Bishop, M. B. Campbell and Dr. J. S. Hunt of Santa Monica. All the medicos were secompanied by their wives, and the Santa Barbarans are going to entertain their medical guests in fine style, numerous excursions having been planned. The sessions of the convention will be held at Hotel Potter.

AIRSHIP FOR PASSENGERS.

'The Condor" Constructed by Young Angelenos.

Claim to be Able to Carry Several People.

First Flight to be Taken in About Three Weeks.

What is said to be the largest alr-ship in the world was practically com-pleted in this city yesterday. Nothing now remains but the final assembling of the parts and the mounting of the engine, which is being firished in St. Louis. The first flight will probably be made from Chutes ball parts. be made from Chutes ball park, the largest available ground in the city,

largest available ground in the city, about June 1.

The inventors are Will Wright and Henry Gehrkens, two young Angeleños. Wright has been experimenting with airships and balloons for eight years, and, in constantly working out his ideas in cunningly devised toy models, inally hit upon the exact measurements for his full-grown, craft. With the ideas he also succeeded in getting financial backing to carry them through, and the result is that his "Condor," as the ship will be called, stands ready for the air.

air.

Wright has managed to keep his working-place a secret, and in this manner has kept out all the curious-save a Times reporter and photographer who crept in yesterday.

The "Condor" will follow the lines of no present air craft, and in propelling, sustaining and steering power will be absolutely original.

In addition to being the largest in dimensions it will be more than four times more powerful in passenger-carrying ability than any other, including the inventions of Santos-Dumont and Baldwin.

Baldwin. Weight, motive force and air dis-placement have all been figured mathe-matically. Wright says the "Condor" is built as a great steamship is con-structed; its makers know before its keel is wet just how much water it will displace, just how far its hull will sink into the sea, and for all practical purposes, the speed. In this manner, basing his calculations on his own dis-coveries, the experimental findings of others, and physical principles. Wright

that several more men may crowd on at one ascension.

In general outline, the "Condor" will follow the only lines that seem advisable in the construction of a ship to navigate the atmosphere. The principal sustaining and lifting force will be found in a huge silk gas bag, 103 feet long, twenty feet in diameter at its widest part, and of cigar shape. The silken envelope is just completed, and is ready for the work of the gas making machine. An inflation will cost about \$400.

A three-cycle automobile motor, being manufactured with special attachments in St. Louis for the "Condor," will arrive next week, it will develop a guaranteed force of ten horsepower, and possibly, with the bearings used, more strength than this.

The ship will be pushed ahead by a

friction a gain in available working force is expected.

The gas-bag will be hitched balloonfashion to a bridge of wire and bamboo, which is now completed, as shown in the accompanying photograph, and only waits the final attachment of all the motive "fixings." It may best be compared to a bridge, since it is constructed bridge-fashion upon the suspension principle, and looks for the world like a miniature of the world-famous Brooklyn span. The floor is a comfortable one of bamboo sections, and the supports which brace it at the sides form in themselves a railing, within which seven persens might easily stand.

pall sustaining and lifting force will be found in a huge silk gas bag, 103 feet long, twenty feet in diameter at its widest part, and of-cigar shape. The silken-envelope is just completed, and is ready for the work of the gas making machine. An inflation will cost about \$400.

A three-cycle automobile motor, being manufactured with special attachments in St. Louis for the "Condor," will arrive next week. It will develop a guaranteed force of ten horsepower, and possibly, with the bearings used, more strength than this.

The ship will be pushed ahead by a pair of three-bladed screw propellors, fastened at the rear at a slight angle, inclining toward the craft, and working exactly as the twin screws of an ocean steamer. They are manufactured upon cedar frames, wire bound. Strong cambric is used in the covering, as its lighter than canvas—and in the minds of the inventors just as durable.

The rudder, at the rear, is a cambric-covered cedar frame, fourteen by six feet in size, and controlled by tiller ropes exactly as the rudder of a ship is guided.

The aeroplanes upon each side are expected to aid in sustaining the ship at any desired height, acting exactly as the rudder of a ship is guided.

Each of the witnesses gave detailed statements bearing upon the insanity of Blake, but the testimony of none was so demonstrative as Blake's own. When Dr. Brainerd began questioning him about the \$2,000,000,000 book Blake became very excited. Gesturing with his arm and bringing bis fist down upon the table, he averred that he not only had said the things anent preposterous finance attributed to him by the witnesses, but could prove by the spirit of Stephen M. White that he and Henry E. Huntington and E. L. Dobeny were to set about the establishment of this \$2,000,000,000 bank atonce. Then he raved of \$500,000,000 paid to County Clerk Charlie Keyes for having instigated Superior Judge Wilbur to send a teigram to his (Blake's) mother, in Illinois, (which he 6ld not.) telling her that Blake was insane. Blake showed himself very bitter toward Wilbur—a state of feeling engendered in the crased man by an act of Judge Wilbur removing him from guardianship in the Goodrich estate and appointing in his stead Walter Hervey, after Blake's unfitness had been made plain. In the presence of the examiners Blake also repeated his declaration that Maud Freitag was dead and her soul inhabited his body.

"FOLLOW ME, MY FRIENDS!"

Without further deliberation the examining board adjudged Blake Insane.

MORE SENSATIONS.

The deeper the investigation goes into the relations, which existed between Maud Freitag and George Blake, the more sensational become the facts

more sensational become the facts elicited.

Early in 1994 Blake went East on a trip, and took Mrs. Freitag with him. Needless to say, her husband and two boys, aged 12 and 7, arbo live in this city with the woman's mother. Mrs. Gates, stayed behind.

In due season the lawyer and the medium returned. At various times between then and the fail they took short overnight trips together, and generally maintained a close companiership. Blake seemed to be utterly enamoured of the woman—as for whom, her age is above 40; she is tall, slight and cadaverous, with very black hair and large dark eyes, and for a long time she has been victim to the drug and whisky habits. But enough of that. She is dying.

In the early fail, came Blake's collapse, a physical and mental break-down complete. For weeks he was under the care of physicians and nurses at the California Hospital. Recovering sufficiently to travel, he started for the home of his mother, Mrs. E. J. Gourley, in Pontiac, Ill. This time Mrs. Freitag did not go slong. Apparently Blake had broken with her.

Just north of the town of Pontiac is situated the old Babcock place, one

The hall was illuminated with the shadows unless the skill of alienists can case the terrible nervous strain under which the unfortunate man has by the mission padres, and while the walls were hung with many relics of the madbeen laboring for three interminable

been laboring for three interminable weeks.

For it was just three weeks ago yesterday—April 25—that George Blake and Maud von Freitag, the spiritualistic medium who how lies dying in a state of hypnosis or seeming insanity, together went through the spell of occult diablerie in which, Blake believes, she idied while resting in his arms; a spell from, whose welrd, influence he appears never to have railied, and from which the woman herself is seemingly passing to her death.

For Blake's recovery practically no chance is seen, though within the next week it is possible that his friends here will make an effort, through some reputable hypnotist, to "shock him out of his madness," as one of them, a prominent attorney, put it last night during a discussion of the case.

"We know that George is insane," said this friend, "and there seems to be some reasonable ground for the suspicion that his madness was brought about, or at least precipitated, by the hypnotic influence of the Von Freitag woman and other alleged mediums in whose company he had been much of late. If there is even the slightest chance of breaking this spell, if he is under a spel, and thereby restoring his lost reason, that chance ought not be thrown aside merely because it is out of the realim of everyday things. I myself take little stock in matters occult, but I would not let a personal prejudice prevent me from having a hand in an experiment which might to the means of bringing Blake back to his mind."

Dr. W. W. Hitchcock, who, with Dr. Dudley Fulton, has treated Blake in Turkey and therested and the costs of Mrs. Von Freitag's care, and an additional nurse was engaged to wait on her at the East Twelfthe street place. Sometimes Blake in Turkey Fulton, has treated Blake in Turkey Fulton.

Dr. W. W. Hitchcock, who, with Dr. Dudley Fulton, has treated Blake in the past for physical and mental illness, gave little hope for the crazed man. Dr. Hitchcock discovered a traced of congenital insanity in Blake a vest ago, and yesterday he told Blake's brother-in-law, H. R. Houston, that for some time he had been expecting i just such a collapse as came. It is certain that Blake, though only £1 years of age and to the casual eye in good physical condition, cannot live long under his present mental strain. He has eaten practically nothing for days, and slept only, a dozen hours in the last week; he is literally living off his nervous force, and that is all bit gone. SCENE IN COURT.

PETTY GRAPT IN MANHOLES.

PEEP BENEATH LID.

PETITI ORAFT IN MANHOLES.
A cracked lid on a manhole yesterday revealed a great deal more than it was supposed to cover up. Inspection showed that the lid was about a hundred pounds under the weight prescribed for manhole covers. Further investigation exposed a graft which sawer contractors have been working at the city's expense for years.

Aunicipal specifications require that all manhole casings shall weigh not less than 60 pounds. It is now claimed that three-fourths of the casings in the sewers on city streets weigh at least one-third less.

These manhole casings and covers are supplied by the contractors who build the sewers. If they can cut down a hundred pounds or more on a casing they are just that much ahead.

But this short weight increases the city's liability for damages, for injuries received on its streets. These manholes are in the center of a street; the lids are saide extra heavy for the reason thas when heavy loads pass over them they are subjected to several tons of weight. A broken lid can be replaced for fig: but the damage which it occasions sometimes cannot be measured by a monetary standard.

Councilmen yesterday considered the practical silv of the city's purchasing all the manhole casings and coverings and reselling them to the sewer contractors. This would, or should, at least, secure manhole covers equal to specifications. If it can be arranged

If it can be arranged without violating any of the provisions of the State act under which sewers are laid, that the city can purchase the casings and covers for the manholes, the Council will pass an ordinance to that effect.

A contractor can save about \$3 on each manhole by using material underweight. In a sewer contract that involves placing several hundred manholes, this becomes quite an item of graft.

HUSBAND'S CRUELTY.

Her Refusal to Drink Champagne Followed by Murderous Assault. Husband Must Contribute Toward Support of Child—Widow of Street Car Victim Loses Her Case.

Fresh as a pink and looking as if nothing could, would or should disturb her equanimity, Mrs. Maud D. Blinn sat on the witness stand yesterday in Judge Bordwell's court, and told the causes of the disruption of her home.

Jauntily garbed in a blue cloth sult, with a Zouave jacket bordered with passementerle over a white silk waist, and with a white dotted veil that only served to accentuate without hiding the face, she hesitatingly stated why she had sued for divorce. According to her story, young H. M. Blinn was inclined to what she considered wildness, and because the wife would not participate, he became sulky and on occasions brutal. She went down to his place of business on Los Angeles street in August of last year about the closing hour, intending to have her husband accompany her home. He began opening champagne bottles, and invited his wife to join in, but she refused. He became so angry that he

Mrs. Leach, the mother of Mrs. Blinn, was a witness for her daughter. The plaintiff was not asking for any alimony whatever, merely the divorce, but Judge Bordwel, answered that while she could waive animony for herself, she could waive animony for herself, she could not do so for the child. The boy is 9 years of age. Judge Bordwell, in granting the decree, ordered that Blinn shall pay \$29 a month toward the boy's support.

Lura D. Hyde was married to Albert E. Hyde on May 29 of last year, but her wedded bliss didn't last long. Yesterday she was before Judge Monroe asking for a divorce, and told the story of her brief married experience.

Hyde is an electrician and took his bride to live at Sherman. The marriage did not interrupt his habit of drinking, and he soon tore up the marriage, lecense and began to abuse his wife. She was young, pretty, and belonged to a well-to-do and refined family at Long Beach, and was astonished and grieved beyond measure. She went to visit her father and her husband took the opportunity of his trip to the seaside renort to tell everyone he knew, and a good many persons that he Jidn't know, that he had never been married to the woman passing as his wife.

This was whispered around until Mrs. Hyde became so embarrassed that she could not venture out on the beach without having some one hasard a remark thrown out to see what she would say.

BRITT AND NELSON.

AGREE UPON A MATCH.

[BY THE ASSOCIATED PRESS.—P.M.]

SAN FRANCISCO, May 10.—James E. Britt and "Battling" Nelson, after a number of fruitless meetings today, agreed tonight to a match of twenty rounds before the Western Athletic Club, to take place either in July or August. The men are to weigh 1325 pounds at 8 o'clock p.m. on the day of the match. Each man posted \$2500 with Harry Corbeit, and the club put up a like sum. The referee is to be agreed upon five days before the fight.

The hitch in the earlier negotiations was caused by a disagreement over the amount of the purse. Nelson insisted upon 65 per cent. of the gross receipts, but Britt refused to accede to this clause, as he has heretofore been receiving a bonus from the clubs on account of being a drawing card. The 65-per-cent. clause, would be a bar to the customary bonus. The Western Club, which is a new aspirant for pugilistic events, however, agreed to give the sum Nelson asked. The westerner is represented by Sam Berger, the former amateur heavyweight boxer.

Nelson will leave for Philadelphia tomorrow, and will return here July 1.

"Those fellows up north were surprised that we could develop anything as fast as Parsons here in the Southland," said Holmes, speaking of the meet. "And I almost believe we surprised ourselves," he continued. "I expected Parsons to win the short dash, but when it came to the 220-yard event, I did not want him to run, because of the wretched condition of the track. "The odds were somewhat against

"The odds were somewhat against us, and the crack U.C. man was used to running the curve. Parsons got the pole, and Snedigar led our man by fully fifteen feet when the runners were within seventy yards of the tape. Parsons lost ground on the curve, as he was unfamiliar with the track. "How those northerners did yell when Snedigar led into the stretch! but Parsons quickly closed up the gap and finished six feet in front of Snedigar. You know the rest. He broke the Coast record, and the feat was remarkable, as the day was damp and cold, and not ideal for record breaking. When Parsons struck the tape ahead of Snedigar, those fellows were so surprised that not a cheer was heard. I croaked out a welcome all by my lonely."

There seems to be a grave doubt in the minds of some as to whether Walter Hempel of Pomona has succeeded in capturing the best dates for teams under his control. DOLITICS IN 'MOBILE CLUB.

SOMETHING DOING WITH BOARD OF GOVERNORS.

True Tale of a Smooth Scheme that Flunked, and the Wherefore of Its Failure—A Wheel that Had Some Spokes Put Into it, and How the Job Was Done.

Politics were doing in the Automobile Club of Southern California last week. This is the season when a new board of governors is elected to run the automobile game in Southern California, and a peculiar custom has become established in the matter of selecting these fortunates. The retiring governors practically elect their successors; they nominate them and the club very seldom fails to ratify the choice.

A few members of the directorate or governing board, who are dubbed by Politics were doing in the Automob

governing board, who are dubbed by the privates in the ranks "life governors," had ambitions, and it was discovered that they had planned to perpetuate themselves.

The word was passed that it was about time a change occurred all around. Some of these same ambitious ones shouted the loudest, and their vo-ciferousness looked "phony" to the rest. A quiet investigation was put on

foot, and it proved the suspicions were founded on fact.

Now a special committee composed of Messrs, H. V. Carter, Homer Laughlin, John B. Miller, W. G. Nevin, E. R. Feuerborn, Harry R. Callender, William M. Garland, Burton E. Green, G. Allan Hancock and Glen W. Hack, will do the nominating. They will select the successors to the present governing board, Messrs. H. C. Brown, Frank A. Garbutt, F. O. Johnson, F. W. TODAY [Only]

Yesterday was to have been the last day for the sale of Clark City lots at acreage prices, but we were utterly unable to accommodate the crowds of people who filled our offices.

Many people waited for hours to get an explanation of the New Plan, and finally had to leave without attention. Our entire office force was not equal to the rush. Hence, in order to be fair to all applications will be received today and the drawing continued from 1:15 to 5 this afternoon.

Orders for lots by mail and wire were not filled for lack of time. and it would be an injustice to out-of-town people to withdraw the lots arbitrarily.

=Town Lots in:

Two thousand population guaranteed within twelve months-did you ever have a chance to buy property in a new town where the population was guaranteed in advance by contracts? Actually guaranteed by contracts?

Clark City is the new town in Monterey County; it is just 26 days old today. The town is located in the center of one of California's richest valleys, 26 miles from the ocean, at the foot of the beautiful Santa Lucia Mountains. Two thousand population is guaranteed within 12 months because 380 families have contracted to build there within that time. Think of that! Three hundred and eighty holders of acreage property in one community have signed contracts to build—and that's only the beginning. Already over soo heads of families are on the ground

and more are arriving on every train.

Fifteen houses have been started in fifteen days and more than a hundred families are living in tents waiting for lumber to build. A National Bank will start in June. Contracts have been let for new hotels—new stores—business blocks. Streets are being graded and cement curbs and sidwalks are being laid in the business center. Today Clark City will distribute lots

At \$19.50

Today only, residence lots (50x150) will be sold on our new plan at that ridiculously low price. The average value of these lots will be \$300 within a year.

Over half of the business and residence lots have already been taken by holders of the acreage property, but the most desirable lots have not been picked out, because the lots were distributed by drawing. Your chance of getting the cream is just as good as if you had been the first to apply, and there is not a poor lot in the whole town site. Only one price—\$19.50—today only.

After May 10th, if there are any lots left, they will be withdrawn from the rules of the

Plan and sold in the usual way at double the present price.

Remember—today is positively the last day—orders by mail will have to bear a postmark prior to May 12th to secure these lots at this price.

It appears from a Washington Ispatch that "the Canadian govern-ment is threatening to send men into Maine to cut out log booms, which are asserted to be obstructing the navi-gation of St. John's River, which flows through Maine and New Brunswick into the St. Lawrence." The threat of invasion, according to the same disinvasion, according to the same dis-patch, is regarded so seriously that Secretary Taft has sent for Hugh C'Beirne, the British charge in Wash-ington, and "asked him to get Lord Lansdowne to advise the Canadians to do nothing until after Senator Hase has had an opportunity to get his bill passed, submitting the question in dispute to a joint commission for set-tlement." O'Beirne, it appears, has promised "to make strong representa-

"At the Whistler exhibition in London," said a tourist, "I had a chat with Joseph Pennell, the well-known artist. Pennell had spent his boyhood in Germantown with me, and so we talked of a boy who had become an artist and married a rich woman. "Pennel said this chap was not altogether happy. He said he would tell me a story about him that would reveal subtly, in a Henry James manner, the cause of his unhappiness. "A stranger visited the man's studio one day last of the college of the City of New York tells this: He was coming down in the elevated one day last week. Opposite him were seated two mep, evidently from up the State. They were discussing theatrical matters.

ously. Thereupon his resourceful assistant picked up a keen-bladed knife, fully two feet long, which he thrust again and again into the quivering body of the rodent. The Rambler saw no more. He turned away, sick and shuddering. When he managed to gather together his scattered wits, it was too late to call a policeman or the Humane Society.

One hideous mode of death was not enough for that unhappy rat—being a noisome pest, at least two must be hit upon to meet his case. Are we living in the twentieth century? was the Rambler's silent question. He avers that these incidents are true, and feara that every one of his readers knows of similar atrocities.

PETITIONED FOR FREEDOM. Convicts Asked Spanish Government

to Celebrate Cervantes's
Tercentenary.

FTAFF CORRESPONDENCE OF THE TIMES.

LONDON, April 26.—From Spain
comes the story of a quaint little literary discussion which the Spanish government has been having with nine hundred convicts at Ocana. It has all been apropos of the coming celebration in Spain of the tercentenary of Cerntes, the author of "Don Quixote." the nine hundred convicts, who are innates of the House of Detention at Ocana, evidently know their "Don Quixote" by heart, for they recently suggested to the government that it would be an appropriate act of clemency to mark the tercentenary by giving them their freedom, and quoted a passage from Cervante's masterpiece in support of their argument. This passage was that which relates how the Don himself delivered a number of galley slaves from custody because, as he remarked to Sancho Panan. "It seemed to him an act of cruelty to enslave those whom God and nature had made free, and he did not think it right that honorable men should be the executioners of their fellow-creatures." mates of the House of Detention at

right that honorable men should be the executioners of their fellow-creatures."

But if the convicts showed themselves well up in their "Quixote" the authorities proved themselves no less familiar with the romance. They denied the ingenuous request and called the petitioners' attention to the sequel of the story, which relates that the convicts had no sooner got their liberty than they turned upon their benefactor, and, to his great astonishment, robbed him of all his valuables.

I understand that from "Jorn Uhi," the novel which has made so great a sensation in Germany and which has just been translated into English, its author, Gustave Frenssen, has received \$6:,500, which is a record in the Fatherland. Over 180,000 copies of the romance have been sold, and Fenssen is at work on-a new novel which he expects to finish in the course of the year. Its scene, like that of "Jorn Uhi," is laid in its author's native Schleswig-Holstein, and the title will be "Aus Einer Kleinen Stodt."

After publishing "The Marriage of William Ashe," Mrs. Humphrey Ward remained in England just long enough to see what the reviewers thought of her work, and to attend the rehearsals of her play, "Agatha," which Beerbohm Tree produced at a matine, and then left for Florence with her hugband. The Wards have now taken a villa, cailed "La Fontenelle," at Careggi, close to the city of the Medicis and are planning to live there for several months.

The horses were going at an eager, spanking pace, but from sheer wantonness of cruelty that inhuman driver uttered a cursing "Git ap!" and struck the off-horse a terrific blow with a long whip that shrieked and whistled in its descent. The punishment was so sudden and uncalled for that the Rambler gasped in indignant amazement. But the abused animal did not seem to mind it at all. His naturally delicate skin was so calioused from previous tortuce that the sense of pain was completely desidened.

A little later, the Rambler saw two men and a rat, at the side of a house very close to the street. The rat was a big fellow, and had been caught in a pail much too small of girth to hold it comfortably, so of course the wretched rat did not drown with the neatness and dispatch expected of him, though one of the men was pumping vigor-

Readers of Scott's "Quentin Durward" will remember that the scene is laid chiefly in Liege, Brussels, where the Belgians are about to hold a World's Fair in commemoration of the seventy-fifth anniversary of their national independence. Now it is announced that one of the most interesting features of the schibition will be a reproduction of the old town as it existed at the time described in the novel. At East Dereham, where the poet Cowper spent his last days, the 186th anniversary of his death was celebrated yesterday by the unveiling of a memorial window in the church where his remains rest. The center light of this window contains a full length picture of Cowper with his hares at his feet, and representations of his sofa and writing deak.

What is the lady going up to the counter for?

To buy meat from the greasy man with the white apron.

What does she ask for?

A five-pound roast of porterhouse.

What does he give he?

A seven-pound roast.

Then does he charge her only for what she asked for?

No, indeed. He charges her for what he chose to give her.

No, indeed. He charges her for what he chose to give her.
Didn't the lady know what she wanted?
Evidently the man didn't think so.
Can he tell the weight of a piece of meat when he picks it up?
Certainly he can. Otherwise he would never be able to know that he is always selling you a piece of meat several pounds bigger than you wanted.
Why does the man do this?
It is impossible to associate constantly with greasy things and not become pretty smooth yourself. Now run and play.—[Baltimore American

Farther down the hill there was a puffing as of a mighty grampus. And Capt. Burbridge hove over the horizon, his mouth watering in anticipation. Hobday looked around as if he had been gold-bricked.

The resources of the Alpine Tavern were taxed heavily by the Sait Lake party. They enjoyed a very fine meal as guests of the Chamber of Commerce. The crowd was so large that it had to be fed in sections, much to the delight of the first section. SALT LAKE SHIVERS AS NEW TRAIN LEAVES.

[BY DIRECT WIRE TO THE TIMES.]

Salt Lake (Utah) May 10.—[Exclusive Dispatch.] Notwithstanding the assurances of the Weather Bureau, that the Salt Lakers were to enjoy clear and warmer weather today, the conditions have been almost a repetition of the disagreeableness of yesterday. A cold and shivering people donned their winter wraps, when venturing out this morning, and they were in evidence throughout the day. Such garments were certainly required for anything like comfort.

The morning opened cloudy and bitterly cold, and at noon a heavy fail of snow lasted several minutes. The mercury beat the record of yesterday for frigidity, touching the M-deg. mark only 2 degs. above freezing. Some hope for improvement is taken in the prophecy of the weather man of freezing and snow tonight, the general belief being that the contrary will happen. Already, this evening, the temperature is a light drizzling rain.

The people are quite indignant because Weather Prognosticator Hyatt deserted them through such a trying period, and are considering drastic methods to bring tim back from the southern paradise, at once to either immediately adjust the weather conditions or share their discomfort.

Fisher Harris, secretary of the Salt Lake Commercial Club, responded, and was followed with short speeches from Judge Colburn, George Stewart, Judge Goodwin, Capt, George B. Caine and Simon Bamberger. The latter speaker Goodwin, Capt, George B. Caine and Simon Bamberger. The latter speaker declared: "Our trip and visit have been nothing but a continual round of pleasure. It isn't quite the thing for me to go back on my own State, but I will say that we have found much to admire and emulate in Los Angeles and Southern California, and the chief of these is the spiendid manner which your people stick together and work to a common end—the advancement of your city and country. It has been an object lesson to us."

Fisher Harris declared that it was the ambition of every Salt Lake man to make enough money to send his family to Los Angeles, if only for a week-"and I'm afraid many of them will want to stay very much longer."

Mr. Rule announced that through Senator Clark the Salt Lake road had extended an invitation to members of the Los Angeles Chamber of Commerce to make a return visit to Salt Lake some time within the next thirty days, and this invitation was warmly seconded by the visiting Salt Lakers.

The girl's name is Dora Josephson.

Several years ago she was kicked by a horse in New York City. She was getting off one of the surface cars when a team rushed by and knocked her down, one of the horses kicking her

on the side of the head.

Ever since she has been subject to violent fits of passion, or excitement. At intervals of a few weeks she would suddenly break loose and smash everything in sight, making a pile of china chips out of the crockery and table

chips out of the crockery and table service.

Sometimes a lenient family would overlook her fault and give her another trial, only to have more china smashed.

She claimed that she could remember nothing of what occurred during these attacks. When she regained her mental equilibrium she would be told of what she had done and would be heartbroken over it.

LINCOLN COUNTY NEVADA

Information as to Sale of Lots in Clark's

Las Vegas Townsite, Las Vegas, Nev.

Owing to the great number of applications that have been received for the various lots in this townsite, and the impracticability of deciding as between applicants for the same lots, it has been decided in fairness to all, to conduct an auction sale of these lots at Las Vegas, commencing at noon on May 15, 1905.

A special rate of \$16.00 from Los Angeles and \$20.00 from Salt Lake City, for the round trip, will be made along the line of the San Pedro, Los Angeles & Salt Lake Railroad to Las Vegas. Tickets will be sold on the 13th and the 14th and return portion must be used before the 18th. Purchasers of lots

A map showing the lots with scale of prices can be seen at Room 507 Pacific Electric Building, Los Angeles, Cal., at Houston Real Estate and Investment Co's office in Salt Lake City and at the office of the Las Vegas Land and Water Company at Las Vegas.

The bidding will be as to choice of lots at the following scale of prices: From \$150.00 to \$750.00 for corner lots and from \$100.00 to \$500.00 for inside lots. All streets are 80 feet wide with alleys 20 feet wide running through the center of each block.

Terms of sale: Twenty-five per cent. down and balance on execution and delivery of deed by the Company within sixty days thereafter. The sale of intoxicating liquors will be prohibited, excepting on blocks 16 and 17.

Further information and particulars can be obtained from Mr. F. A. Waters, Room 507 Pacific Electric Bldg., Los Angeles, or at the office of the Company at Las Vegas, or from W. E. Vigus at the office of Houston Real Estate & Investment Co. at Salt Lake City.

RIGHT-OF-WAY PRICE SCALED.

C. E. Sweetzer, against whom the Interurban Railroad Company has been conducting condemnation proceedings for right of way over his forty-acre ranch west of the river, was awarded only \$400 damages by the verdict of a jury yesterday evening. Sweetzer asked \$1800 damages and wanted the right of way reduced from 100 feet wide to 6ffy feet. Both requests were denied. The award of \$400 was exactly the amount which right-of-way agents for the road had already offered him. Although the suits are brought in the name of the electric company, the damages are paid from the fund raised several months ago by Orange-county citizens for the settlement of right-of-way claims in order to give the company a free right of way through the county.

ELECTRIC SUSPENSORY

FOR WEAK MEN

This Electric Suspensory carries the current direct to the weak parts and cures all weakness of men, varicocele, etc. It develops and expands all weak organs and checks unnatural drains. No case of Failing Vigor, Varicocele or Debility can resist the powerful Electric Suspensory. It never fails to cure. No charge with Belts for weak men.

No man should be weak; so man should suffer the loss of that vital element which renders life worth diving. No man should allow himself to become less a man than nature intended him; no man should suffer for ains of his youth, when there is at hand a certain cure for his weakness, a check to his waste of power

Most of the pains, most of the weakness of stomach, heart, brain and nerves, from which men suffer, are due to an early loss of fiature's reserve power through mistakes of youth. You need not auffer for this. You can be restored. The very element which you have lost you can get back, and you may be as happy as any man that lives.

My Electric Belt, with Special Electric Suspensory (free,) will restore your power. It will check all unnatural drains and give back the old vigor of youth.

NOW FOR THE FINAL.

On Friday night at the State Normal School in Los Angeles will take place the concluding debate in the County High School Debating League between Long Beach and San Fernando. As this is the deciding contest, it was thought best to have it occur on neutral ground. The question to be debated is, "Resolved, that Engiand should have a protective tariff." Long Beach has the affirmative side of the question, and will be represented by Marjoric Curts and Max Church, who took first honors in the previous debates won by Long Beach.

GERMAN VESSEL BRINGS THE NEWS TO SAN PEDRO.

Craft, of Which Name Was Not Learned, Was One Hundred Days Out from Antwerp to San Fran-cisco—Thousand Miles of Sailing In

[SY DIRECT WIRE TO THE TIMES.]
SAN PEDRO, May 10.—(Exclusive Dispatch.) News of a British ship in distress was brought here today by the German ship Pindos, Capt. Thum, which dropped anchor this afternoon in the outer harbor, 116 days out from Hamburg.

in the outer harbor, 116 days out from Hamburg.

The skipper came ashore tonight and reported that on April 7 in latitude 18 deg. south; longitude 93 deg. west, he passed a full-rigged English ship bound from Antwerp to San Francisco. She was 100 days out and was flying the signal "MGPD." He could not get her name. The Pindos was quickly blown past the other vessel and was unable to go to her assistance before she was out of sight.

quickly blown past the other vessel and was unable to go to her assistance before she was out of sight.

While rounding Cape Horn Charles Jansen, one of the seamen, was thrown against the cook's galey and his left leg was broken.

Within the past four days the Pindos sailed over 1000 miles of sea.

She has brought a cargo of 20,000 barrels of cement consigned to W. D. Wise, Southern California agent for James Maynard, Jr. The Pendas is of 235, tons and it will be necessary to lighter a part of her cargo before she comes inside. With the exception of the French bark Ville de Mulbouse, 2425 tons, which was here in September, 1903, the Pendas will be the largest ship to ever enter this port.

Another vessel, the British bark Pass Killiecrankie. Capt. Vint, has been added to the list scheduled for San Pedro. She has begun loading a general cargo at Antwerp. The British ship Glenevicht is now out thirty-two days from Hamburg and the British bark Kilmeny is loading a cargo of cement at the same port for San Pedro.

ANOTHER FACTORY.

Destined to Bring Great Wealth to Southern California A Needed Enterprise With Men and Money Behind It,

A Needed Enterprise With

Reference has previously been made in these columns of the incorporation of a factory to manufacture glass bottle, and particularly a protective or non-refiliable glass bottle.

The Company has recently been incorporated under favorable conditions with some of the most representative men and practical glass operators of Southern California, who are going ahead on a conservative basis to build an industry that will bring thousands of dollars to Southern California and is destined to be a great boon to wine producers, olive oil interests, mineral water bottlers and manufacturers of lemon and orange essential oils.

The Company is disposing of some of its treasury stock at \$6 a share, having a par value of \$10.

It is the biggest and best investment open to the public, in the city today when compared with other propositions.

The fundamental idea of all business is profit and the bottle making industry gives the largest possible profit that can be had from any industrial enterprise.

Every material is at hand, silica sand in abundance, needing only natural oil and gaz.

Experienced men may be had from throughout the East where the principal factories are located. Thousands of expert workmen would be glad to escape the great extremes in weather for normal conditions here.

These three things considered, material costing next to nothing but the time to get it, fuel at riset cont, and expert help at lowest wages, with no

Then if you want stock that you can depend upon to pay dividends. If you want stock that will make you a partner in a profitable enterprise.

If you want stock that you can convert into ready cash at a great advance over its cost to you-puchase stock in the Protective Glass Bottle Company.

The proposition is legitimate, is conservative, is backed by best judgment, at the same time it is fraught with bonanza possibilities.

Six dollars pays for \$10 worth of stock.

It is sure to double and thribble in price.

The time to buy stock in any corporation is at the ground floor price, not when it is on dividend basis.

A gold mine peters out—most of them do. Oil wells dry up—if they ever did spout.

Other enterprises are crowded out because of competition.

We have no competition.

The safety of our proposition is absolutely guaranteed by tangible assets, trademarks, patents and business possibilities.

Independence, comfort, and ease will be your lot ultimately if you will make your dollars, be they few or many, work for you in forwarding the Laterests of this Glass Bottle factory.

This is a modern incorporation, exemplifying in practice the cooperative idea, combining in its funds and operation the capital of many individuals and the award to each investor an honest and equal proportion of the profits.

Recent census reports prove that the average returns per man engaged in the various pursuits largely favors that of industrial enterprises.

Richard Stone Went to Sleep on a up Man and Left Nearly Naked in the Street-His Assailant Escaped, and Stone Went to Jail.

Richard Stone, a miner, who came in rom the desert several days ago, ran foul of the meanest hold-up man in os Angeles last night. Stone vibrated in the Tenderloin dis trict in the early part of the evening, and finally becoming tired, he seated himself on a barrel in front of No. 127 South San Pedro street, and wen; to

Shortly after midnight Stone says he the face. A hold-up man had knocked him off the barrel, and was going through his pockets. The miner told the police the robber took all of his money—\$4.20—and then took his hat, coat and shoes. Then the robber began removing his victim's trousers, when he saw a man passing down First street. At the approach of this man the thief ran toward Second street and disappeared.

Stone wandered down the street hatless, coatiess, and in his stocking feet, and related his strange experience to Patrolman Ditser. The victim was sent to the Police Station for a night's lodging. He could not describe his assailant. the face. A hold-up man had knocked

It was said that the cause of his sud-It was said that the cause of his sud-den call was congestion of the lungs. The body was burled without cere-meny. For a number of years Lo had been engaged in the business of assist-ing Chinamen to cross the boundary. His efforts were rather unsuccessful, for which reason he incurred the en-mity of the high-binders, who had sworn vengeance.

COMMISSIONERS RESIGN. C. C. Jobes and Fayette Austin, Horticultural Commissioners, have resigned. W. L. Detrick, the third member, resigned some time ago. This is the result of the contention made by the District Attorney, that the services of the board was a needless expense to the county. It is reported that the Su-pervisors will appoint Mr. Austin to take charge of the work which has heretofore been done by three men.

SALOON MEN COMPLY. Today was the last day of grace for the saloon men to comply with the anti-screen law. Some of them put it of till the last minute, and additional time has been granted for them to get into line. Two wholesale liquor stores which have supported retail bars have gone out of the retail business. The sa-loon men say they will make no oppo-sition to the Sunday-closing law, which is now in effect. for her care and comfort until death.
But, as revealed in yesterday's search
among the papers in his safe. Blake
failed to obtain the loan. The party
approached insisted that Mrs. Gourley
and her daughter, Mrs. Houston, sign a
mortgage to secure it; they were not
willing. Blake might have raised the
sum here, for it is understood that he
owns certain lands in the vicinage
through legal service performed by him owns certain lands in the vicinage through legal service performed by him in the celebrated Mayberry divorce case; but it was "suggested" to him that far the wiser and pieasanter way would be to mortgage property somewhere outside this State. There were subtle influences behind some of these thrifty "suggestions," it would seem!

FATEFUL WEDNESDAY At last came April 26, the fateful

At last came April 26, the fateful Wednesday, three weeks subsequent to which the doors of the madhouse should open to admit George Blake, and close behind him, perhaps forever. Little he dreamed it!

On that day the Preltag woman sent Blake an urgent message to come to ber at once. He responded, arriving at No. 513 East Twelfth street shortly after noon. He was admitted at once to her bedroom, where she lay, weak and ill. Precisely what happened there may never be known, 'though something of the uncanny nature of it has been learned. Blake had been in the room, alone with Maud Von Freitag, perhaps fifteen minutes, when the whole house was thrown into alarm by a series of blood-chilling screams—the screams not of a woman, but of a man. Rushing to the chamber and throwing open the door, the attendants found Blake standing in his stocking feet in the middle of the floor, holding in his arms the apparently lifeless form of Von Freitag. On his face was "a fixed look of horror; he seemed as though in a trance or the clutches of an awful dream."

a trance or the clutches of an awful dream."

The only effort on the part of Blake, so far as has been found out, to tell of those fateful fifteen minutes, was made by him at the solicitation of a friend two hours later, and it was incoherent, fragmentary, brief.

He said that when he entered the room Von Freitag told him she would soon "pass out" (the spiritualistic term for dying,) and asked him to lie down beside her, that they might talk. He removed his shoes and lay down. Then, from what can be gathered, it was that, while they discussed her approaching death, the mortgage and the care of her two children after she should have "passed out." she worked upon Blake with all her failing powers the hypnotic spell. Of the "high forces," the "lords of Karma," and other occult phantasies, she spoke to him. And she called her to others, his "Theodora," and she swore to him that when she has "passed out." her soul should fly to him, to be in him and with him always, until he, too, should "pass out," and together they should sweep spiritward to dwell forever on the satral plane.

And all of these things George Blake has babbled of, day after day, since

THE WEIRD CLIMAX.

THE WEIRD CLIMAX.

Suddenly, as the climax of this occult delirium was reached, the woman's body began to writhe in convulsions. It was then the house heard the lawyer's blood-chilling screams.

From that day, three weeks ago, people began to whisper that George D. Blake was "gone wrong." From that day he has raved of his "Theodora, who died right here in my arms." From that day he has drooled of "the soul of my dear one, that is wrapped here, here! between my heart and my spleen." For that day he went mad.

Why does Maud Von Freitag, rousing at intervals from long hours of stupor resembling death itself, start up and cry out in anguish at "the horrible wrong I have done to George?" and wall incoherently that she is bereft of power to "free George from the wrong I have done?" Will some one say?

Yesterday morning she leaped from her bed and tried to beat down the locked door, all the while calling on the name of the man who, his reason pulled down, his strength in ruins, lies gibbering in a madhouse cell.

CUIT TO KNOCK VENTURA BONDS.

LIGHT AND WATER COMPANY ASKS AN INJUNCTION.

Character of Legal Talent Engaged Indicates that the Case Will be Carried to the United States Supreme Court in the Event of Unfavorable Decisions.

VENTURA, May 10.—It may be many days before this town will realize municipal ownership of its water and light plants. The people yoted last month to bond the town to spend \$125,000 for these utilities, ignoring entirely the existing company which furnishes light and water to the town. At the last meeting of the Board of Town Trustees the clerk was instructed to have the bonds issued preparatory to selling them next month. Today the Ventura Light and Water Company filed a suit in the Superior Court to restrain the town authorities from issuing these bonds. The attorneys for the local company are Barnes & Selby and E. M. Selby of this city, Henry O'Melveny of Los Angeles, W. E. Shepherd of this city and Dillon & Hubbard, the bond lawyers of New York City. VENTURA. May 10.-It may be many

W. E. Shepherd of this city and Dillon & Hubbard, the bond lawyers of New York City.

That it is the intention of the company to fight the town through all the courts, even to the United States Supreme Court, if necessary, is evident from the retaining of the New York law firm. The suit is brought against W. L. Lewis as president of the Board of Town Trustees, Ed Isensee, town clerk; Mrs. H. R. McDonel, town treasurer, and W. L. Lewis, William McGuire, N. Pierano. Robert Sudden and W. G. Wild as town trustees.

The specific grounds upon which the restraining order is asked are that in the call for election the voter was asked to vote both upon the questions of a water supply and installing of a plant in one, and upon the further ground that it was necessary to state whether the money voted was to buy or build a water system.

It is the intention of the plaintiffs to have some other judge than the resident judge try the case, since he would be asked to sit for Judge Ewing. The present light and water systems are owned by Los Angeles and Pasadena capitalists, with a few shares of stock owned in this city.
